

## Activity 1 – Fire Lighting

### What to do?

This activity is split into three difficulties (easy, Intermediate & Extreme). We are asking all Beavers, Cubs and Scouts to toast their marshmallows on a small fire. We would recommend our Beavers and Cubs try the easy and medium difficulty with the Scouts mixed between the medium and hard difficulty.

Remember to post all your photos and videos on your sections Facebook page and Cubs please send to Akela!

Easy – You can use all the materials mentioned below to toast your marshmallow...[Click here](#)

Intermediate – Slightly harder and often a test for the Scouts. Do not use your cotton wool this time around...[Click here](#)

Extreme – Even harder and defiantly a challenge for the most experienced...[Click Here](#)

### What do you need?

Everything you need should be in your packs that have been dropped off but if you are not sure what to use you will need:

- Kindling (wood to light)
- Marshmallows
- Matches
- Cotton Wool
- Skewer

**Lastly, make sure you are all tidied up and ready for Let's Build at 11:30am.**
